DO YOU WANT THE U.S. CONGRESS TO FULLY RESTORE FUNDING FOR THE ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM?

Then join U.S. Senator Charles E. Schumer in the fight to convince the Senate and the Bush Administration to restore full funding to $1 billion.

In just six short years, the Assistance to Firefighters Grant program has become one of the most popular and meaningful federal funding streams for our nation's career and volunteer firefighters.

Restoring full funding to the Assistance to Firefighters Grant program will allow fire companies to continue to purchase essential equipment, vehicles and training that many cash strapped states and counties currently struggle to provide. Please help by signing your name below.
