

The Perfect Body Worn Camera Package For Corrections

We've put together everything you need to get a body camera program started quickly and easily at your corrections facility.

What's included:

D3 Body Cameras

Reveal's D3 body cameras are the most advanced body cameras in the world across video quality, battery life, functionality and ease of use.

The front facing screen has a proven calming effect on people being recorded and maximizes transparency with inmates. When appropriate, the screen can also be used to view video back, without needing a smart phone or a PC.

Being able to direct the head allows the camera to be worn in various places on people of all shapes and sizes, or used as a handheld camera to conduct searches.

PC with DEMS 360

DEMS 360 is our most advanced digital evidence management solution that allows you to simply and easily manage your body camera footage, hosted on a high-spec DELL all-in-one PC.

Docking Station

Simply dock your camera and DEMS 360 will do the rest. The forward facing screen displays the booked out and uploading status of the camera so you can always see when it's good to go.

Storage

Securely store all your digital evidence, in one place on a secure, encrypted, Raid 1 external hard drive.

Get everything you need to start using body cameras from a one off cost of \$5,700
